PROFILE

I'm a backend developer with 9+ years in the field, working in several kind of projects.

I'm a life-long learner, always ready to help and passionate about the things I do on a daily basis.

I enjoy creating things on the web and fixing complex bugs in big codebases using mostly the Python ecosystem.

PROJECTS

Virtue Poker

2022 - 2024

Poker platform.

Guided the architecture, developed new features, bug-fixing, performance improvements reducing roundtrip time

SKILLS

Python3 / Flask / Django

DRF / GraphQL

Django Channels / WebSockets

Redis / Celery / Datadog

Docker / AWS

MySQL / PostgreSQL

Unit Testing / CI

Multitenancy

EDUCATION

B. S SOFTWARE ENGINEER

Universidad del Valle 2011 - 2016

- Best graduate student
GPA 4.22 / 5.0
- Research Project
awarded with a
meritorious mention

SOFT SKILLS

Leadership

Proactivity

Team Playing

Good Communication

Results Oriented

Problem Solver
